ECOMADE

Produced with Green Energy

F2D invests in a fully eco-friendly production process. EcoMade meets the growing demand for responsible tableware, combining style, quality, and zero carbon emission during firing.

Natural Porcelain built to last

Our EcoMade collections are crafted from Natural Porcelain, a high-performance ceramic clay enriched with natural iron oxide, giving it a distinctive raw beige tone. With over 20% alumina and fired at 1260°C, it is fully vitrified (0% water absorption) and extremely durable. Ideal for demanding environments, it offers exceptional strength and refined aesthetics. Fired in solar-powered electric kilns, it unites sustainability, durability, and timeless design.

Reactive Glaze

Each EcoMade piece is finished with a reactive glaze. Thanks to this, no two pieces are alike. This creates a subtle variations that make every item unique yet perfectly cohesive.

Innovative & Creative

EcoMade stands for innovation at every level. Our advanced production process runs entirely on green energy, combining technological efficiency with responsible manufacturing. At the same time, creativity remains at the heart of the collection.

Unique textures, distinctive shapes, and natural color variations offer chefs the freedom to create bold, expressive table settings, without compromise.

Local sourcing - premium ingredients

EcoMade is proudly made in Europe, more specifically in Portugal. Thanks to the country's ideal climate conditions, our production runs on renewable energy generated from sun and wind. By manufacturing locally and working with regionally sourced clay of exceptional strength and quality, we ensure durability, consistency, and reduced transport impact. The result is responsibly produced premium Natural Porcelain built to perform, service after service.

ICON

ICON: Seasonal
Tableware That
Inspires.

Each season, Fine2Dine curates a selection of bold, unique pieces inspired by the world's most exciting food, restaurant and hotel movements. Think unexpected forms, striking textures, and colour stories that demand attention – all designed to challenge the ordinary and spark fresh ideas for your menu presentations. Crafted in high-quality Natural Porcelain (1260°), Icon pieces are practical for professional service yet creative enough to turn any dish into a showstopper. Icon is your seasonal toolkit for creativity – fresh ideas, global trends, and ready to put your signature dishes in the spotlight.

ICON SS26

Nature inspires. You create.

This season, Fine2Dine brings you a curated selection of bold, one-of-a-kind pieces, inspired by the textures, forms, and patterns found in nature. Organic curves, irregular silhouettes, and tactile surfaces give chefs new ways to frame dishes and tell a story on every plate. Each piece invites experimentation and creativity – perfect for

tasting menus, sharing concepts, or seasonal specials. Crafted in high-quality vitrified ceramic, these items perform in professional kitchens while letting your culinary vision take centre stage. With Icon 2026, every table becomes a canvas and every dish a piece of art.

CONE

CONE: Where
sharp lines meet
centre-stage
plating.

Cone draws inspiration from Asian conical lines and is designed to make the centre of the plate the star of the show. Minimalist, balanced, and fully stackable, this Natural Porcelain collection is a chef's dream for clean, elevated presentations.

Cone lets every creation take centre stage – refined, focused, pure.
